

EMC protect**Item number**

97455

Quality

- ✓ fine shielding fabric, synthetic, metallic conductive surface
- ✓ metallic
- ✓ ferromagnetic
- ✓ highest shielding properties for electromagnetic fields
- ✓ shielding properties 60-70 dB for frequency at 0,1 to 1,5 GHz
- ✓ strong and durable
- ✓ earthing possible, earthing required with several applications

Technical data

length/width: 50,00 m/1,04 m
weight: 95 g/m²
shipped as: running meter

Range of use

higher shielding requirements, residential use possible
